

# HTML ASSIGNMENT

Create a website with home page, about page and contact us page with following detail

## Home page

- Show popup on home page with "welcome to my site" message.
- Create top fixed navbar with first level dropdowns under home tab (using tabs = submenu1, submenu2, submenu3)
- Highlight active nav and text as per the page
- Create full width Carousel with images, text and button.
- Create 3 content boxes with images, text and links (top left and bottom right 50px corner border radius).
- Use icons, images, and code base animations.
- Create Footer and add pages links, address, Social media links and copyright text

## About page

- Create top fixed navbar with first level dropdowns under home tab (using tabs = submenu1, submenu2, submenu3)
- Highlight active nav and text as per the page

- Show page title and breadcrumb with background Image
- Create left and right content boxes.
- In a left side box add about your website text with heading and p tag
- In a right side box use an appropriate Image.
- Create Footer and add pages links, address, Social media links and copyright

## Contact us page

- Create top fixed navbar with first level dropdowns under home tab (using tabs = submenu1, submenu2, submenu3)
- Highlight active nav and text as per the page
- Show page title and breadcrumb with background Image
- Create Form with name, email, contact number and Message field with validation.
- Add google map location.
- Create Footer and add pages links, address, Social media links and copyright

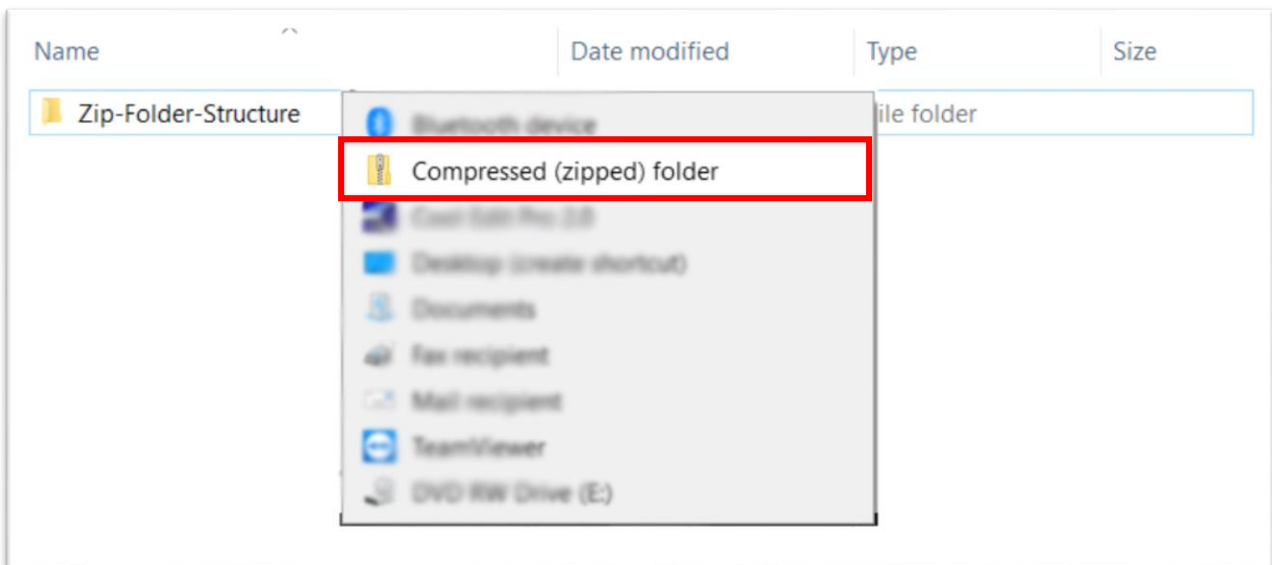

You will be assessed on Creativity, Typefaces, Colours, Images, Navigation, Grid based layouts, Load time, cross browser compatibility and Responsive mobile friendly

## How to submit

Create a zip file of your project

Zip folder structure

Zip-Folder-Structure			
	Name	Date modified	Type
★	css	3/12/2020 12:58 PM	File folder
★	images	3/12/2020 12:58 PM	File folder
★	js	3/12/2020 12:58 PM	File folder
★	about	3/12/2020 1:00 PM	Chrome HTML Document
★	contact-us	3/12/2020 1:00 PM	Chrome HTML Document
★	index	3/12/2020 12:59 PM	Chrome HTML Document

Open [bluetickcloud.com](https://bluetickcloud.com) and upload your zip folder with appname of your choice

Share the URL generated from bluetickcloud.com as result of assignment
